[The Global Association of Corporate Universities & Academies](#)

## Development In Real-Time: Your Opportunity

Are you ready to take that essential leap into the unknown?

### That Giant Leap Forward

This is what creating a Corporate University or Academy is all about - moving forward every day in real time. Your aim is to create and protect your real-time development solutions.

### Don't Forget: Take The Organisation With You In Real Time!

[The Corporate University Blueprint](#) is the toolkit you need to create your unique learning & development system. With it, you will learn to connect people across the organization & harness their skills, developing solutions to tackle new challenges as they arise.

We work with you to position your company and its people for real-time change, action & growth, encouraging the promotion of learning, thought & real-time development initiatives.

G-ACUA helps mentor members to gain insights into development, utilising expertise from across their business & establishing useful pathways. We also offer [courses & programs](#).

## ‘Giving Your People A Brighter Future’

A Corporate University is a management tool designed to help organizations achieve their very specific strategic goals. It allows businesses to conduct confidential, focussed, individual & organizational learning, within the privacy, setting and ethos of that business.

## Design & Create A Corporate University With G-ACUA Increase Employee Engagement With Efficient In-House Learning

- Real-Time Targeted Management
- Optimize Real-Time Training delivery
- Initiate & support change in your organization
- Create your own organizational learning framework
- Bring a common culture, loyalty, and belonging to a company
- Retain employees
- Promote key employees
- Drive job growth
- Remain competitive in today's economy

## Best Practice

Learn how to promote the quest for knowledge and understanding. Foster continuous learning in a constantly changing world.

Best practice and the latest knowledge is used to solve intricate problems and competitive learning issues.

We will show you how cost-effective best practices and providers promote effective knowledge transfer across your organisation.

G-ACUA's [Corporate University Blueprint](#) teaches you to facilitate your people's ideas, analytical skills, practical visualisation of aims, objectives and outcomes in a series of congruent real-time learning events.

## Learning, Support, Consultation & Workshopping

Use the [Corporate University Blueprint](#) to develop your business learning management system for a sustainable competitive advantage.

Our focus on real-time learning brings you the benefit of constant adaptation & leadership training, efficiently moving you forward.

[G-ACUA programmes](#) help you to build your ultimate bespoke business solution.

Become G-ACUA [Members](#) & encourage business innovation, employee retention with CPD & a supportive, dynamic learning culture.

Your solution is completely your own, bespoke for your organisation and will never be divulged to anyone outside of the process.

## Certification & Membership

International [Corporate University Certification](#) is a statement of success, indicating that your Corporate University or Academy development and skillset has reached world-class, professional standards.

Using an established appraisal framework, G-ACUA Certification is a seal of quality and learning leadership.

Consultations are available to all of our [Members](#) via [telephone](#), [email](#) & Skype. Helping them to resolve any emergent issues as they progress towards and beyond [Accreditation](#).

Results show that [Membership](#) and [Certification with G-ACUA](#) is the ultimate way to create the ultimate Real-Time Corporate University. So get in touch and let's get started!
